---

Junior full-stack developer with an educational background in Political Science, studied full-stack development at the University of Toronto. Effective at combining creativity and problem-solving skills to design user-friendly applications. Strengths in communication, logical troubleshooting, team-oriented attitude and desire to learn.

EDUCATION

Bachelor of Arts in Political Science, 2020
Western University - London, ON

Certificate in Full Stack Development, 2021
University of Toronto - Toronto, ON

SKILLS

- JavaScript ES6+, CSS3, HTML5, NodeJS, ExpressJS, SQL, MongoDB, React, HandlebarsJS, Query, Bootstrap, Sass, Git.
- Visual Studio, Adobe Photoshop, Microsoft SQL Server, Shopify, WordPress, Github.
- Effectively communicates design issues to users and stakeholders - excellent communication skills.
- Logical troubleshooting skills, ability to quickly determine the source of a problem and implement a fix.

EXPERIENCE

ASSISTANT + SOCIAL MEDIA COORDINATOR   2018 – 2021
Amouyal Sisters Real Estate Group. Vaughan, ON
- Provided administrative support, monitoring customer support lines on emails, calls and social media, managed gathering and sharing of important documents and information between agents to clients, and improving client database on Microsoft Excel.
- Generated visually compelling Instagram content with Adobe Photoshop, which garnered attention in listings from clients and realtors. Executed improvements in social media optimization.
- Performed tasks accordingly and efficiently, maintaining a high standard of customer service. Followed instruction from the business owner with close attention to detail and allowed agents to attend to sales by relieving them of administrative duties.

WEB DEVELOPER   05/2021 – current
Freelance - Marvelous Creations.
- Developed ecommerce storefronts for web and mobile Shopify stores, ranging from entry-level theme setups to custom U/I builds based on my own creative designs or client designs.
- Implemented SEO strategies in store development taught to me by the senior web developer with close attention to detail and generated clear and compelling written content to share the brand story and appeal to target audiences.
- Improved visual content for storefronts by utilizing Adobe Photoshop skills to edit and resize photos, improve photo resolutions for banners and product photos, meeting a high standard of visual content for ecommerce.
